INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

For the convenience of the Patent and Trademark Office, record is made below of published art for consideration by the Patent and Trademark Office in connection with the above-identified application. Enclosed with the present Information Disclosure Statement is a form PTO-1449, which lists the references being brought to the Examiner's attention. The references, being cited herewith, were previously cited in connection with the parent application from which the present application claims priority. Consequently a copy of each of the references is not required, and can be obtained from the file corresponding to the parent application. No representation is made or intended that a search has been made or, if made, was complete, or that no more pertinent art than that listed is available. It is expected that the Patent and Trademark Office will independently conduct a complete search for relevant prior art.

The present Information Disclosure Statement is being filed at the same time (i.e. within 3 months) of the filing of the present application, and prior to an issuance of a first

Office action on the merits. Consequently, **no fee is believed to be due**, and consideration by the Examiner is believed to be appropriate.

Should a fee be deemed to be necessary, for purposes of consideration of present disclosure statement and the references cited herein, the Commissioner is authorized to charge any such fees which may be required under 37 CFR §§1.16-1.17, or credit any overpayment, to Deposit Account No. 04-1644.

Respectfully submitted,

BY Lawrence J. Chapa
